

IMPORTANT UPDATE – ACKLAM SHOW EQUINE INFLUENZA REQUIREMENTS

Firstly, we would like to apologise for any confusion caused regarding our Equine Influenza vaccination requirements for this year's Acklam Show.

Unfortunately, we were following the incorrect set of rules, using FEI guidance rather than the vaccination requirements generally followed by British Eventing, local riding clubs, and affiliated shows.

Therefore, to clarify, horses attending Acklam Show on [6th June](#) must have received an Equine Influenza vaccination within the last 12 months, rather than 6 months as previously stated.

Please ensure you still bring your horse's equine

passport with you on the day, as passports may be checked.

Thank you for your understanding and cooperation. The health and welfare of all horses attending the show remains our priority, and we appreciate everyone's support.
